KliniTray™

from KLINIKA

Key Features

- Easy tissue examination
- Lightweight synthetic board material
- Pre-attached radiopaque topographic markers and frame

Determine tumour sites with millimetre precision

KliniTray™ is a tissue transfer and x-ray system based on a non-radiopaque board with pre-attached radiopaque topographic markers. Side indicators and radiopaque frame provide exact discovery of the tumour within the tissue sample.

KliniTray™ allows the surgeon to pin the tissue to the board, using specially designed safety pins, which secure the tissue in a defined 3D topographic position. Once pinned to the board the tumour tissue remains stable and can be transported with ease.

KliniTray™ is available in 3 sizes, Large, Small and Extra Small.

KliniTray™ Extra Small ensures the best possible fixation of small tissue particles, especially during surgical removal of a cone-shaped sample from the vaginal portion of the cervix.

It is equally suitable for flat and pointed conisation procedures as well as the fixation of basal cell carcinomas and malignant melanomas.

POWER + PERFORMANCE

KliniTray™

from KLINIKA

Tray Features

- Pre-determined 3D topographic radiologic and sonographic examination
- Millimetre precise measuring both intra-operatively or post-operatively
- Special safety pins for horizontal and vertical examination
- Clear lesion localization possible with radiopaque markers orientation
- Pre-attached topographic markers to indicate which side of the patient's body the tissue has been removed from
- Re-useable stand for craniocaudal x-rays
- Airtight and watertight container

Mamma-Boards - Sterile and Non Sterile

KliniTray™ Large ("L"-board)
with 4 blue metal pins + orange marker pin:
18 x 20 x 1cm

KliniTray™ Large ("R"-board)
with 4 blue metal pins + orange marker pin:
18 x 20 x 1cm

KliniTray™ Small ("L"-board)
with 4 blue metal pins + orange marker pin:
9.5 x 16 x 1cm

KliniTray™ Small ("R"-board)
with 4 blue metal pins + orange marker pin:
9.5 x 16 x 1cm

KliniTray™ Extra Small
with 2 blue metal pins
6.7 x 4.5cm

Equipment

- Plastic Container - Large: 3000ml
- Plastic Container - Small: 1000ml
- Plastic Container - Extra Small: 120ml
- Stand for KliniTray board for vertical radiographs
